Description

30' x 48' x 10' Steel Metal Enclosed Building Garage

Building Color:

Roof – Brown

Sidings – Tan

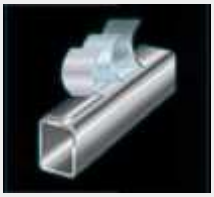

Doors - White

This 30' x 48' x 10' Steel Metal Enclosed Building Garage can be used as a garage, or storage building with an adequate 1440 sq. ft. of space. Pre-engineered for DIY installation, it features pre-cut premium heavy duty 2 in. x 3 in. galvanized structural steel tube frame components and patented Slip-Fit connections for faster assembly. Strong all-steel construction is resistant to fire, termites, mold and rot for lasting use and is engineered to meet most building codes for wind and snow load. Framing for a 16ft. x 7ft. garage door opening and one side entry door opening allows convenient entry and exit, as well as accommodating your choice of doors (not included).

FEATURES:

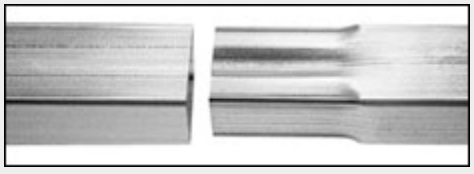

- **1440 sq. ft. garage provides plenty of room for vehicles or other storage**
- **Sidewall height 10 ft., overall height 13 ft. 9 in.**
- **Nine Color Options**
- **Engineered for 50/35 lb./sq. ft. ground/roof snow load at 110 MPH C exposure wind load**
- **Stamped engineering drawings and calculations available for an additional fee**
- **Installation on a concrete slab with built-in footings and a sheeting ledge recommended not included**
- **Made in USA**

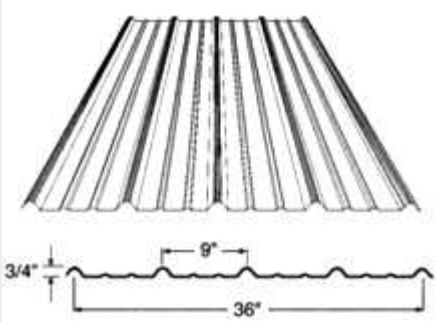

Triple Layer Protection - This triple layer of corrosion protection zinc bonding, conversion coating, and clear polymer coating provides a smooth, shiny end product appearance that is unmatched in strength and durability. Salt spray tests prove this triple coat sealing process resists rust two times longer than any pre-galvanized or electroplated tubing product. And let's not forget the obvious termite and rot resistance advantages over wood.

Smooth Mandrel Bend - this kit features a mandrel bending system for a cleaner look and a stronger bend transition. Framing systems for most primary structures and complete packaged kits include frame components that feature mandrel bends.

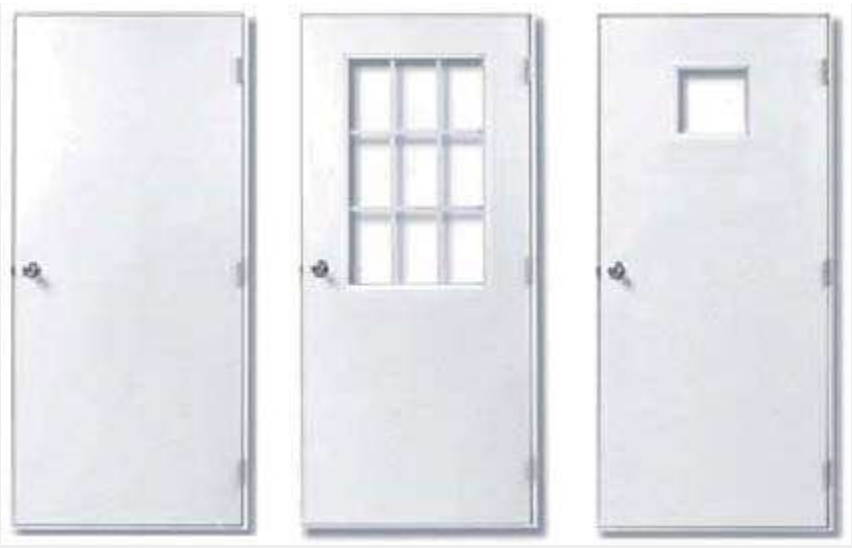

Easy assembly - it's design and standard frame components dramatically simplify the installation process.

PANEL PROFILE:

- **Premium 29 gauge painted steel roofing and siding panels deliver a quality professional look**
- **Low maintenance, easy-to-clean finish resists chalking, fading, stains and dirt retention**
- **80,000 PSI minimum yield strength**
- **20-year limited paint warranty**
- **Color-matched trim and accessories included**

SPECIFICATIONS:

- **Dimensions: 30'W x 48'L x 10'H.**
- **O/C Spacing: 6'**
- **Snow Load: 30 PSF**
- **Wind Velocity: 90 MPH**
- **Maximum Wind: 140 MPH, V3s, with 20 PSF Live Load**

PACKAGE INCLUDES:

- **Frame System**
- **Framing for both doors**
- **29-gauge steel roof and wall panels**
- **Trim**
- **Hardware**
- **Butyl Caulk Tape**
- **Closure Strips**
- **Concrete Anchor Bolts**
- **Assembly Instructions**

24x26 Fully Enclosed Steel Garage Carport - Installation Included

Building Color:

Roof – Earth Brown
